Segment 1 "To The Moon"

Topic:

Reason why we have selected topic

Description of our source of data

Question we hope to answer with the data

Description of the data exploration phase of the project

Presentation drafted in google slides

Machine Learning Model

Presenting a provisional machine learning model and:

 Model takes in data from from a provisional database

 Output labels for input data

Database

 We present a provisional database
 that stands in for the final database and accomplishes the following:

 Sample data that mimics
 the expected final database structure or schema

 Draft machine learning module is connected to provisional database
